

# Welcome

Dear Colleague,  
Greetings !

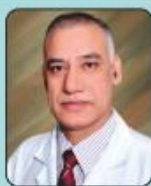

On behalf of Organizing Committee, I deem it a great privilege in welcoming you to 11th Minimal Invasive Spine Surgery Update 2018 and Live Operative & Cadaveric Workshop on Spinal Endoscopy (Interlaminar Endoscopic Discectomy, Endoscopic Lumbar and Cervical Canal Decompression and Percutaneous (MISS) Pedicle Screw Fixation and Fusion) in city beautiful Chandigarh.

The meeting has a focussed agenda of bringing together different techniques being practiced in the fast and latest developing field of Minimal Invasive Spine Surgery. We are honoured to have renowned International and National pioneers of this field sharing their expertise. The conference is designed to cover the basic and the latest developments in Minimal Invasive Spine Surgery. The scientific sessions will cover live surgeries, guest lectures, clinical case discussions, operative video sessions. For the beginners it is a very good opportunity to start learning the procedures during our 'Hands on Cadaver Workshop' which encompasses basics of Minimal Invasive Endoscopic Spinal Techniques & Percutaneous (MISS) Pedicle Screw Fixation and Fusion. Hands on cadaver workshop will be a good opportunity to learn this technique for orthopaedics and neurosurgeons who are doing open spine surgery but have some exposure to Arthroscopy or Neuroendoscopy. Don't miss this opportunity to learn from the experts and register early for workshop as we have only 30 seats to be filled on first come first serve basis .

Let's come together and learn together.

We heartily invite you to be the part of 11th Minimal Invasive Spine Surgery Update 2018 and Live Operative & Cadaveric Workshop on Spinal Endoscopy (Interlaminar Endoscopic Discectomy & Canal Decompression and Percutaneous (MISS) Pedicle Screw Fixation and Fusion).

## Organizing Chairman

Dr Mohinder Kaushal

## Organizing Secretaries

Dr Arvind Malhotra

Dr Rohit Jindal

## ORGANISING COMMITTEE
